Residence Hall Association

Residence Hall Association (RHA) at Ithaca College is both a school and national organization. RHA was created to make sure that Residence Halls are the best they can possibly be. Additionally, RHA is a form of student government and leadership for the residence halls at Ithaca College. RHA tries to make the time residential students spend at the university more pleasurable by improving the quality of residence halls, programming, giving the students a voice, and helping students meet and interact with other students.

The *My Favorite Student* care package program supports out of classroom learning and experiences through fundraising.
